

Scott Lewis

SCIENCE DEPARTMENT

CLASSES TAUGHT:

Physical Science, Physics, AP Biology

ABOUT ME:

This begins my 25th year teaching science in Catholic Schools. I teach a variety of science courses here at Bishop Foley: Physical Science, Physics and AP Biology. I am also an assistant coach for both Cross Country and Track & Field.

GRADING POLICY

My classes are graded on total points, and the grade is the percentage on the total earned/total available.

HOMEWORK/LATE WORK POLICY

Students should expect to have some form of homework most days. On days when something is not assigned they should still spend some time reviewing what has been covered in class. Assignments are posted to the FACTS gradebook as well as on Google Classroom. Most assignments will be collected and graded in Google Classroom as well. If a student misses a class they need to check Google Classroom to see what was assigned that day. Late work is accepted within a reasonable time period for a maximum of 80% the original value.

HOW CAN A STUDENT SUCCEED IN YOUR CLASS?

The best way to be successful in my class is to work hard, do your best and study some each day.

BEST WAY TO CONTACT YOU/COMMUNICATE

The best way to contact me is via email. I will send out notifications via Google Classroom or by email (or both). If parents would like to be included, there is a way to receive the Google Classroom notifications.
